Dear customer,

Most of you are using doffing combs (DUR) on your Asselin-Thibeau's cards.

This system requires careful maintenance.

To help your team to better control the use of the doffing comb, we are organising maintenance training sessions in our facilities at Asselin-Thibeau, Elbeuf, France.

To be as efficient as possible, the training sessions are planned for a maximum of 6 people at a price of 400€ per person, (travelling costs not included).

If you are interested, please contact us! The next training will be held on June 15th 2011.
