www.nsc-nonwoven.com

Dear Sir or Madam,

WHAT'S NEW?!! NSC nonwoven has applied a new tariff to spare and consumable parts from July 2009.

This truly confirms our continuous effort and commitment to provide excellent service and value for money.

Our technicians feed-back, plus the awareness of the difficult worldwide economic situation, are among the reasons behind our eagerness to listen even more to our valued customers!

We are sure that some of you have already noticed the change in pricing and the cost savings this represents to you.

We really would like to highlight our efforts in 2 particular areas:

• Buy-and-resell parts:

CHALLENGE us on our motors for equipment retrofits! We are extremely competitive.

ASK us about our prices and be surprised at our competitiveness for encoders, drives, motors..., or any buy-and-resell parts that fit your original Asselin-Thibeau machines.

• Cheaper consumable parts and previous machine generation parts still available!

NSC nonwoven supports its customers with consumables and machine spare parts, even for the oldest designs.

CONTACT us for quotations and save money on maintenance costs.
